

**UNIVERSITÀ
DI TORINO**

Dipartimento
Neuroscienze
"Rita Levi Montalcir

**DOTTORATO IN NEUROSCIENZE
PhD IN NEUROSCIENCE**

**DIPARTIMENTO
DI NEUROSCIENZE
RITA LEVI MONTALCINI**

Thursday, May 11th 2023

Aula A Magna di Anatomia (Corso M. D'Azeglio, 52)

h. 14.00

LECTURE

“Metabolic syndrome and central nervous system”

Prof. Silvia Gancheva

Pharmacology Department

Medical University “Prof. dr. Paraskev Stoyanov”-Varna, Bulgaria

h. 15.00

LECTURE

“Effects of phenolic acids and flavonoids on the nervous system”

Prof. Antoaneta Georgieva

Pharmacology Department

Medical University “Prof. dr. Paraskev Stoyanov”-Varna, Bulgaria

At the end of the lectures, Proff. Marinova and Georgieva will be available for discussing opportunities of mobilities for students and scientific collaborations with Dept Members

**Hosts: Massimo Collino
Carola Eva**

DOTTORATO IN NEUROSCIENZE
PhD IN NEUROSCIENCE

UNIVERSITÀ
DI TORINO

Friday, May 19th 2023

Neuroscience Institute - Cavalieri-Ottolenghi Foundation (NICO)
(Regione Gonzole, 10- 10043 - Orbassano (TO))

h. 14.00

LECTURE

**“Pharmacologically induced changes in osteocalcin levels –
metabolic and central nervous system effects in healthy and
metabolic rats”**

Prof. Silvia Gancheva

Pharmacology Department
Medical University “Prof. dr. Paraskev Stoyanov”-Varna, Bulgaria

h. 14.30

LECTURE

**“Effects of Aronia melanocarpa and its component chlorogenic
acid on the ovariectomy-induced behavioral changes in rats”**

Prof. Antoaneta Georgieva

Pharmacology Department
Medical University “Prof. dr. Paraskev Stoyanov”-Varna, Bulgaria

*At the end of the lectures, Proff. Gancheva and Georgieva will be available for discussing
opportunities of mobilities for students and scientific collaborations*

**Hosts: Massimo Collino
Carola Eva**
