

SEMINAR CYCLE OF THE PhD IN NEUROSCIENCE

University of Turin

UNIVERSITÀ
DI TORINO

TENTATIVE PROGRAM

UNIVERSITÀ
DI TORINO

January 17th h 4:00 PM – Prof. Emiliano Ricciardi & Dott. Davide Bottari, IMT School for Advanced Studies of Lucca

"How blindness improved our vision on a modality-independent organization of the brain" & "How the brain of the cochlear implanted children processes natural language"

February 17th – Dott. Daniele Romano, Assistant Professor at the University of Milan – Bicocca
"A Space For My Body"

March 30th h 4:00 PM – Dott. Andreas Kalckert, Senior Lecturer in Cognitive Neuroscience at the University of Skovde (Sweden)

"Ownership, Agency, and the body – Understanding the moving body"

April 28th h 11:30 AM — Prof. Marco Peviani, Associate Professor at the University of Pavia

"Harnessing the heterogeneity of neuroinflammatory responses to tackle neurodegeneration in Amyotrophic Lateral Sclerosis"

May 30th h 3:00 PM – Dott. Annarita Patrizi, researcher at the German Cancer Research Center (Hamburg)

"Choroid plexus: a new entry point to study the brain development"

June 26th h 11:00 AM – Dott. Marco Canepari, researcher at the Université Grenoble Alpes

"Optical analysis of neuronal ionic currents in acute brain slices"

TENTATIVE PROGRAM

UNIVERSITÀ
DI TORINO

The participation at the seminars allows to attribute 0.5 credits to the students of the PhD in Neuroscience.

Signatures of the participants in each seminar will be collected.
